I ask all of you to evaluate this 1 star app and please do not play this application as once you play this will be going to find that ě s this is the biggest scam to go to India right now . You will never find yourself winning yourself and when you ask about the game system that says it's totally protected and enough run by RNG, but I don't know if I am visible in the RNG database or not because I played MPL from 15 MONTHS PASSED AND DO NOT EXIST THE DAY IN WHICH I AM A WINNING FROM MPL I also checked and charged only 18k after adding more than 1.5 lakhs and show my winnings like 7 lakhs. Plus scam please don't t play this application if love and respect your money, once the account will be created there is no option available to eliminate the account I mean, this is clearly illegal work in course and mPL please have a bit of shame because you only taking someone's ě s hard money work alone running a scam, if you start playing serious fair I can assure you that you will have a better future coz from today Each phone will first see what I want I gonna do is the rate of your 1 star application. I did a lot of searching the tie rules but I didn't find any rule that corresponds with this tie application control. Also, when you lose the game money it would be deducted twice from the balance earned as well as total cash which means Application Server creates its s own ID and plays against players. If the player loses the game then double charge. If the player is about to win the game then pop-up will be matched, haha. It gives me t game Ludo think that the nuts ě ě is moved by play servers. But I never thought that in my strategy game like chess that can find a loophole to deceive players, if possible, please look to this and try to improve anyone helping game can me where to report for fraud app?
