We send pay slip to employees embedded in an Email, using "PPAT Level Messaging". But it does not look nice. Can I use HTML to present the data before employees. I thought about PDF files but size of PDF file is greater than HTML files. I need to minimize the storage too. Can I use HTML here ? If so, how can I ? How can I format the message in HTML ? You can achieve this functionality in BI Publisher to send mail to customer in HTML format, by simply changing the output format to HTML in BIP. T. Reddy Unfortunately, I cannot use BIP. Still we are not upgraded for BIP. we are using 8.12. And also, upgrading to BIP is not yet in plan But I wrote the following code in 'Item Glossary' of my DD item and it is working fine. I did not try the entire pay slip, this is just for a testing. Hope this method will work. Code: New Payslip Hello Mr.&1, Basic : &2 Others 1 : &3 Others 2 : &4 Total : &5 The payslip templates are some of the most used templates for all the good reasons. Payslips are required in every organization. Whether it's an office or business, a school, college or university, some construction site or medical center, you need payslips everywhere to keep a record of the payment of wage. The slip templates are mainly used for salary payments. Sometimes they are also used for keeping records of other miscellaneous payments.
