Google is long to work on their automotive automotive initiative. The project has already registered thousands of miles on the motorway, and the cars are moving in the city for further practices. While the machines are still far away to be available to be available for public consumption, which did not interrupt Google from putting them through the steps to get everything right. Google has reached a lot so far, collaborating with car manufacturers like Ford, Toyota and Volkswagen to help in the production process. So far the machines are testing Texas, Virginia, Washington and their home base in California. There is much more to do to get these cars to be truly ready for everyone for everyone, so come for the trip with all the new ones right here. You can't put it back longer ... a trip to the car dealer is in your near future. But how can you be sure that the piece of metal, plastic and tire you are looking for you? How can you get better with what will be not only one of your biggest investments, but also a trusted partner, long-term in your daily life? A test drive, obviously. Take advantage of it is a simple common sense issue, careful observation and knowing what to look for. Read on how to prepare for this important experience and what to keep track of when you a new car for the first time. Your homework wanders around the lot to see which cars are available. When you look at a dealership, youYou already know which model / desires and what options you are interested in. Do your search in advance ... Our online buyer guide is a handy tool: and make the initial journey exclusively for the purpose of being back the wheel. Also: â€¢ Driving your potential back-to-back candidates the same day so you can make a correct comparison. »Consider a friend to keep the seller busy and underline the things you might neglect. Although you have to hold the vehicle at home during the night ... as many retailers now allow ... "To make sure and see if it fits your garage, at least make an attempt to return at night to observe how well the headlights perform And how well the interior is illuminated. Acquanzelozedonce You At the Dealership, let the seller know that you want to drive the vehicles you have in mind and then compare the models and prices in other showrooms. Do this should allow you to better focus on your ride perspective while you communicate to the dealer you are ready to take your business elsewhere if an interesting offer cannot be made. Â€ Because some options and powertrains can greatly alter The feeling of a vehicle, it is important to drive the particular model and level of order you intend to buy. If your dealer doesn't have the Powertrain you're looking for, wait or find someone who does. Take your time and carefully continue the machine, taking notes and analyzing how the vehicle looks in the metal against the photographs. Despite the key and crushing the accelerator could be your first inclination on a test drive, instead walking the vehicle and inspect it thoroughly. € Observing how certain features could be irritating in everyday use, such as inadequate storage cubbies and cup holders, as well as a trunk that is difficult to use or has an opening that istoo small or too high. (they're the necessary racing tables, or they're about to dirty your pantsFor more money?) â€¢ Driver and front passenger doors can be large and easy to open and close, but also examine the ease of entry and exit for rear occupants, including entry and exit to the third row of seats, if applicable, and how difficult it is to install a child seat. Are the rear seats adjustable, comfortable and sufficient, and bend for greater load capacity? • Remember To review vehicle safety features, such as airbag number, active safety electronics and adjustable seat belts. - If the children will drive in the vehicle, bring them and let them evaluate the separate controls and services in the back seat (if they are old enough to drive themselves ... and will actually leave them ... you probably should take them behind the wheel) Â€ Take note of the vehicle Fit, finish and general construction quality. Examine some elements that serve as Bellwethers for the overall craftsmanship, including the quality of the sun visors, the box of gloves and the upholstery of the seat, as well as the operation of the gearbox and how the doors are deeply closed. â€¢ Find out if the vehicle takes premium or lead-free petrol... or if it is a diesel and requires unique maintenance procedures. - If it is convertible, how easy it is to lift and lower the top, and how much storage is sacrificed when the top is raised? â€¢ For larger vehicles, it will probably want to review trailer features and trailer hitch capabilities and type and height, as well as ensure that adequate trailer electric connectors are preinstalled in factory or can be managed by the dealer. Â€ For pick-up trucks, how heavy is the hatch, and what options are available to improve bed usability? Going for a spinnow? behind the wheel. Located and make a sale of how much primary controls are arranged. Ergonomics can make or break a good machine, and because we spend most of the time within our vehicles, vehicles. They are increasingly efforts to differentiate interiors with multiple style, the latest technologies and unique layouts. â,~ â€ The easy to use primary controls (is the too hard clutch or the steering too heavy?) and quite adjustable For you and other potential drivers to be comfortable? A telescopic steering wheel and adjustable pedals can be a great advantage in this regard, since the driving position is determined not only by the driver's body, but also things like the height of the indent and seats, the driver's distance from The steering wheel ... "Which should be about 12 or more thumbs - and the facility with which the infotainment system can be worked. â,~ â€ The front seats are comfortable and solidarity (not too soft or difficult )? Hot and cold air. Â »How electronic gadgets play an increasingly important role in our daily life, the interface of the human vehicle of the vehicle should be examined. Bring your iPod to verify how good stereo sounds, insiem And how easy it is to check the device once in synchronization with the entertainment system. Wireless Bluetooth Connectivity, Wi-Fi and Voice Activation Offer And Voice Activation Offer And How well they work with your mobile device? Â€ â,~ â€ is there a large room to conveniently position your gadgets while driving? Â€ â,~ â€ The navigation system is intuitive to function and accurate in its directions? Â€ â,~ â€ If the dealer won lets you borrow the car for the night, tells the seller you will have a better feeling for this if you go out alone, without distractions. If he insists in coming, he clarifies that you want to guide the vehicle on yours And experience it on more road surfaces and variable speeds ... Don't be forced into a quick jaunt around the dealer on Ultra-Liscan roads. Â€ â,~ â€ see if the vehicle has enough power to merge safety Traffic and if the brakes have a solid and reassuring sensation for their operation - but forget to make your Vettel Sebastian impression for the seller. - Take different angles to evaluate the compousure of the vehicle when the direction of rough surfaces changes as well, as for how long the transmission operates when driving urgently. Don't take the â€
