However, the formatting of rules can vary widely between applications and fields of study. The specific requirements or preferences of your revention editor, class teacher, class,Or the organization should be applied. ATTENTION: Some text formatings within quotes can be lost or altered when copied to web-based text processing programs such as e-mail services. Abraham Silberschatz is the professor of Sidney J. Weinberg and president of computer science at Yale University. Before joining Yale, he was the vice president of the Information Sciences for the information sciences of Bell Laboratories. Previously, he carried out a chair presided over at the Department of Information Sciences at the University of the Texas of Austin. Professor Silberschatz is a member of the ACM and a member of the IEEE. He received 2002 IEEE Taylor L. Booth Education Award, 1998 ACM Karl V. Karlstrom Outstanding Educator Award, and 1997 ACM SIMOD contribution award. In recognition of its exceptional level of innovation and technical excellence, the Bell Laboratories President Award was awarded award for three different projects - The QTM project (1998), the DataBlitz project (1999) and The Netinventory project (2004). The works of Professor Silberschatz appeared in numerous ACM and IEEE publications and in other professional conferences and magazines. He is the co-author of the concepts of the database system. He also wrote OP articles for the New York Times, the Boston Globe and the Hartford Courant, among others. Peter Baer Galvin is the main technology for Corporate Technologies (), a retailer and computer implant supplement. Before this, Mr. Galvin was the manager of the Brown University's Computer Science Department systems. He is also the columnist of Sun, Login: Magazine. Mr. Galvin wrote articles for bytes and other magazines, and wrote columns for Sunworld and sysadmin magazines. In quality of consultant and trainer, he held interviews and taught tutorials on security and systems administration around the world. Greg He is president of the IT department at Westminster College in Salt Lake City, where he teaches since 1990's. In addition to teaching Systems, also teaches computer networks, distributed systems and software engineering. It also provides workshops to computer educators and industry professionals.
