It can also be used as a normal PDF file viewer. Connecting the intelligent device via a USB cable or a wireless adapter allows you to use the 3-pedal unit (SP-34) or the Damper (SP-3) pedal as a Turner page À ĉ - Supported Modelspx-S1000, PX-S3000, CDP-S100, CDP-S3000, CDP-S150, CDP-S350PX-S150, CDP-S350PX-S1100, PX-S3100, CDP-S110, CDP-S160, CDP - S360users of models that do not support page rotation can still access the rotation capability of the page using a third-party bluetooth bluetooth turner. Models on which the operation is confirmed ç - IRIG blue turnÀ ç - AIRTURN PED PROÀ ç - À ĉ Audio PlayerPlay Ped audio on your device with musical instruments such as key change and change of time, looping and melody cancels. * The effectiveness of the cancellation / accompaniment accompanying melody varies depending on the song.À ç - à ĉ intelligent device connection to a musical instrument via a wireless adapter supported models px-s1100, px-s3100, cdp-s360- what It is necessary for the connection and the connection method used here for more details on the .https links: //web.casio.com/app/en/piano/support/connect.htmlÀ ç 'À »Using a wireless adapter maintains The area around the clean and tidy keyboard and makes the MIDI player, the piano remote control and the audio player even more fun to use. Do not connect the Wireless MIDI and Audio adapter (WU-BT10), a USB cable and an audio cable to the intelligent device at the same time. ç - à ĉ intelligent device connection A to music instrument via a cable - Models supported by cables MODELÀ ç À »USB-MIDI ConnectionPX-770, PX-870, AP-270, AP-470PX-S1000, PX-S3000, CDP-S100, CDP-S90, CDP-S150, CDP-S350PX-S1100, PX-S3100, CDP-S110, CDP-S160, CDP-S360À ç À »Audio ConnectionPXPX-S1000, PX-S3000, CDP-S100, CDP-S90, CDP-S150, CDP-S350PX-S1100, PX-S3100, CDP-S110, CDP-S160, CDP-S360Connecting using a USB-MIDI connection Allows you to connect the music instrument with devices like the of the piano, a MIDI player or a pedal for the page that turns in the PDF score viewer. The audio connection also allows you to listen to playback of the audio player on the music instrument speakers. SET 7, 2021 Version 2.4.2 While the Chordana game for the piano app does a lot to facilitate the process of changing settings on my PX-870 and also provides the possibility of saving four configurations and load them from the app, I find it Overwhelmingly frustrating in other areas: 1) provides the ability to play pieces with an orchestra, but scores for those they are not found anywhere; 2) The learning section offers a variety of pieces to learn, with most of them being classic. The problem here is that they do not provide the notation for them, but only use a roll of colored piano with a SUSCREEN keyboard to show which notes are reproduced. They really received this backwards, since the contents of this app is predominantly classic, but they only provide a piano roll; Considering that, in their first ChDdana app, which had very few classic pieces, and were mainly remased and pop of kindergarten, they provided the choice of a piano roll, regular notation or both. Because, with a product oriented towards serious players, they would limit the teaching section to something that serious players do not use! 4) There are no mention at any point of the manual or video to explain how to import PDF files into the app. After asking for a facebook group, someone advised me how to do it, that I had already tried alone, but it doesn't work on my iPad or my iPhone. I really like my PX-870, but this app is very disappointing. I'm trying to connect my keyboard to this app and I can't understand how it works. Do I have to connect something? Or it's Bluetooth, because my keyboard has no bluetooth so how can I use my ipad for the piano remote controls, part tells me À ç à, ~ "this function requires a connection to a compatible digital plane. Please help me please . There are many posts written on the app that does not connect to the keyboard or not recognizing it. This is because many users use the wrong USB port. They connect it to the door that looks like a USB charging port 2. This is actually The port in which Casio wants you to take a hard drive. The other USB port that is more square is the one for connecting your iPad a.so is not a problem of app! The developer, Casio Computer Co., Ltd., indicated that App's privacy practices may include data management as described below. For more information, see the developer's privacy policy. The following data can be collected and connected to your identity: Diagnostics D and the data of use other data privacy practices may vary, for example, based on the functionality that are used or at the age. Privacy Information Privacy Privacy Policy Supported ModelÀ ç 'À »USB-MIDI ConnectionPX-770, PX-870, AP-270, AP-470PX-S1000, PX-S3000, CDP-S100, CDP-S90, CDP-S150, CDP-S350PX-S1100, PX-S3100, CDP-S110, CDP-S160, CDP-S360À ç 'À »Audio ConnectionPX-S1000, PX-S3000, CDP-S100, CDP-S3000, CDP-S150, CDP-S90, CDP-S150, CDP-S350PX-S1100, PX-S3100, CDP-S110, CDP-S160, CDP-S360 What is needed for connection and connection method used: "Connecting a A musical instrument "for details. The connection via a USB-MIDI connection allows you to connect the music instrument with devices such as the remote control of the piano, a MIDI player or a pedal for the page that turns into the PDF PDF Viewer. The audio connection also allows you to listen to playback of the audio player on the music instrument speakers. À »PX-S1000 and PX-S3000 audio connections allow you to use the musical instrument in wireless mode as a Bluetooth speaker by combining Bluetooth audio (receive only) integrated into the music instrument with an intelligent device. À »Do not connect a USB cable and an audio cable to the intelligent device at the same time." Set the intelligent device connected to a mode that prevents the communication of mobile data, such as the mode in flight.À ç 'À, à ĉ " Connect using a USB cable that is no longer than two meters long. À.- supported by Casio Modelsk-265 keyboard, LK-266, CTK-2500, CTK-2550 and CTK-3500 À ç - Stereo Mini to Stereo Mini Cable required. The connection function Keyboard allows you to use an audio cable to send melody data and rope together with audio playback. Use the keyboard lighting function and drill step-up lessons directly on the keyboard itself. The function has two mode mode modeWhen a song is reproduced, the light keyboard shows the left side and the melody. The notes and chords for the melody are shown on the LCD keyboard display. - Save ModeYou Modeyou Transfer and save the right melody of the song and the data of the agreement to the left, or the performance data to the left, to the keyboard. It is therefore possible to play the song and use the step-up lesson function. À ç 'À »Audio Song is sent using the left channel of the intelligent stereo device output, while melody and rope data is sent to the right channel." On the CTK-2500, CTK-2550 and CTK-3500, notes And the chords for the melody are shown on LCDA, à "ç | If you use right data (melody) and agreements, up to about 880 rights of the right side can be transferred to the keyboard, taking two agreements to fit for 200 measurements. À, à "ç | If you use the right hand data (melody) and left (accompaniment), up to around 1100 notes can be transferred. à, à "ç | If you are not included NON-NOTE MIDI (patches, pedals, etc.) it reduces the number of notes that can be transferred, leading to potential errors even if the approximate limit of 880 or 1100 notes is observed. Some features, such as available functions, screens and names differ depending on the model. Check the App Store or Google Play for information on supported operating system and models. Refer also here for information on what is necessary to connect the intelligent device and the piano and the connection method used. Connect your smartphone or tablet to a CASIO digital piano compatible to control various settings. Select Tone, play internal tracks and more on the screen on the device. Use the icons easy to understand for intuitive control. You can also check the settings not directly visible on the instrument itself, such as reading the tuning frequency (Hz) and the type of temper. The viewer can view the PDF music of 60 tracks in the musical library. It can also be used as a normal PDF file viewer. Smart device connection via a USB cable enables CDP-S100 users, CDP-S350, PX-S1000 and PX-S3000 to use the 3-pedal unit (SP-34) or the DAMPER (SP-3 single unit) pedal As a Turner page. Users of models that do not support page rotation can still access the page rotation capacity using a third-party bluetooth ç à® turner. You can view the descriptions for the embedded songs of the app and composers. The users of the templates listed below can listen to the musical library integrated in the piano. AP-470, AP-270, PX-870, PX-770, PX-S1000 Visually check the next key or buttons to play and view them in the ROLL plan window. Play your rhythm using time setting and repeated ab. Keep track of your improvement skills and practice more fun with the integrated score system. The app includes a musical library with a collection of 60 songs that even beginners can enjoy listening and playing, as well as the Vorschule of Beyer im Klavierspiel op. 101 (106 songs), the 25 easy and progressive studies of BurgmÀ ç ller op. 100 (25 songs), Bach's inventions (15 tracks) and Hanon virtuous pianists on 60 exercises (3 songs) *. You can also add your MIDI files to integrate the collection of internal songs. Search for MIDI files using your smartphone or tablet or import midi files that you have already in the app. * 201 songs: Number excluded duplicates Play audio on the device with musical instruments such as key change and change of time, looping and melody melody. * With some audio files, the Melody Cancel may not be able to cancel the entire melody. melody.
