There is a mistake. She waits a minute and try again. Meeting of God, by Jacopo Zucchi. Wikibuku has a book entitled Greek mythology Greek mythology is a collection of myths and legends of ancient Greece and contains stories of gods and heroes, nature and the world, origin and the meaning of ritual practice and cultivated by the ancient Greeks. Greek mythology is part of ancient Greece. Modern historians have studied Greek mythology to discover politician, religious and civilization in ancient Greece, and to acquire an understanding of mythical training itself. [1] Most Greeks are described as human beings, born but will not be old, immune from anything, can be invisible, and every god has its own characteristics. Therefore, the gods also have the names of the titles for each character, which can be more than one. These dbe sometimes help human beings, and also establish love relationships with human beings that produce children, which are half of a semi. Children were later known as a hero. Greece Mistology explicitly found in a collection of greek ancient stories and works of art, such as vascular paintings and ritual objects for the gods. Greek mythology describes the origin of the world and tells the life and adventure of various of the gods, heroes, and mythological beings. Greek mythology was initially distributed through the oral tradition. At present, most information on Greek mythology is obtained from Greek literature. The source of the oldest Greek literature, namely Wiracita Iliade and OdysseiaAA € à,- "Stories contained focused on the Troya war. Meanwhile, two poems of Hesiodos works' 'Theogonia and Erga Kai HemeraAA € à,-' tells of creation of the world, the time of the power of the God, the turn of the eth of human beings, the origin of human misery, and the origin of the sacrificial ritual. Greek mythology was also found in Homeros hymnings, wiracarita pieces from the epic cycle, The artwork tragedy of the fifth century, historians and poets from ancient Greece, as well as ancient writing from the Roman Empire from writers such as Plutarkhos and Pausania. Archaeological discoveries have shown important sources about the details of Greek mythology, where the gods and The heroes emerged in decorations on many artifacts. Geometric design on ceramics from the 8th century, describes scenes from the Troya cycle different from Eracle Adventure. In the sustainable reciprocal periods "periods ie Arkais, Classic Or and Hellenistic "Various sources of Greek mythology, as from Homeros. These sources add various existing evidence. [2] Greek mythology has influenced the culture, art and literature of the Western world and continues to be part of western heritage and language. Since ancient times, many poets and artists take inspiration from Greek mythology, and find a lot of relevance and contemporary meaning in the themes of Greek mythology. [3] The source of information on Greek mythology that is known for the current is largely obtained from the work of Greek literature and its representation on visual media derivatives à €
