Windows 8.1 free license key Windows 8.1 free license key There are 2 types of windows on keys, one of them is generic windows keys and the alternative is activation windows keys. A generic Windows on key is the key that simplifies the installation method, once inside the install method, windows lets you enter ten product keys into valid windows, at which point public keys are keys that can quickly activate windows and cause you to use windows restricted options. The Windows on installation prompts you to enter the operating

Windows product keys. If you enter the public keys, otherwise you will only choose the trial version of the Windows skin installation. Once you enter ten activation keys in valid windows, you will activate your windows instantly.
