Dr. Naomi Sellers
Chair, English Search Committee
Box 58
Baxter College
Arcadia, WV 24803

Dear Dr. Sellers:

I am writing to apply for the position as assistant professor of English with an emphasis in rhetoric and composition that you advertised in the October *MLA Job Information List*. I am a graduate student at Prestigious University working on a dissertation under the direction of Professor Prominent Figure. Currently revising the third of five chapters, I expect to complete all work for the Ph.D. by May of 1999. I believe that my teaching and tutoring experience combined with my course work and research background in rhetoric and composition theory make me a strong candidate for the position outlined in your notice.

As my curriculum vitae shows, I have had excellent opportunities to teach a variety of writing courses during my graduate studies, including developmental writing, first-year writing for both native speakers and second language students, advanced writing, and business writing. I have also worked as a teaching mentor for new graduate students, a position that involved instruction in methods of composition teaching, development of course materials, and evaluation of new graduate instructors. Among the most satisfying experiences for me as a teacher has been instructing students on an individual basis as a tutor in our university Writing Lab. Even as a classroom instructor, I find that I always look forward to the individual conferences that I hold with my students several times during the semester because I believe this kind of one-on-one interaction to be essential to their development as writers.

My work in the composition classroom has provided me with the inspiration as well as a kind of laboratory for my dissertation research. My project, *The I Has It: Applications of Recent Models of Subjectivity in Composition Theory*,

Use the form of address and title of the contact person as they appear in the job notice.

Refer to the job title as it appears in the notice, and state where you learned of the position.

Mention your major professor by name, especially if he or she is well known in your field. Also, mention your expected completion date.

Make a claim for your candidacy that you will support in the body of the letter.

For a position at a small undergraduate college, emphasize teaching experience and philosophy early in the letter.

Describe your dissertation and plans for future research. Emphasize links between your teaching and research.

Dear Miss. Ernest,

Subject: Job application for Architectural Representative

I apply for the position of Architectural Representative in your firm responding to the notice on getjobsnow.com. I considered myself handling the job requirements you have given and I think I can do justice to it given my experience of one and half year in Washington Architects Association. I have handled the sales department there and was responsible for giving reports for the marketing department. I am proud to state that my reports have contributed to a considerable increase in the sales figures and profits. My resume and other documents will give you the details. I do not see someone else fitting better into the job description of Architectural Representative that you have given.

Building good professional relations with our clients was my specialty too and I firmly believe nothing makes a client-employer relationship stronger than giving good after sales service and maintaining relations.

Can I look forward to hearing from you for an interview or do we need to have a discussion prior to that? I would be more than happy to do the same. Please contact me.

Sincere regards,
(signature)
Shawn Jonathan
