Mojo
Portable DAC Headphone Amplifier
OPERATING INSTRUCTIONS

Es muy sencillo: simplemente escriba el nombre de la marca y el tipo de producto en la barra de búsqueda y podrá ver instantáneamente el manual de su elección en línea de forma gratuita. Mojo comes with a comprehensive 12 month warranty (conditions apply) please register online. Checking exclusive modes allows programs like JRiver to bypass the Windows Sound Properties and take over the sound control. Nuestra base de datos contiene más de 1 millón de manuales en PDF de más de 10.000 marcas. (NOTE that this image is for the Hugo setup - Mojo will work in exactly the same way, showing up as an audio out option in the menu below like the Hugo) Configure the audio setup for the Chord Mojo in this window. The blog for the Chord Hugo can also be referenced since the settings and configuration steps are the same for the Chord Mojo. Install the driver on your Windows Vista, 7, 8 or higher PC (be sure to install the correct driver for your computer). Never spray directly onto the converter and never use abrasive cleaning, use only a lint free soft cloth. Right Click on the Chord Mojo. If you would like more information or want to discuss how the Mojo can improve your headphone and music listening via headphones or speakers, we'd love to help you. Spray window cleaner (clear type) may be used (if first sprayed onto a soft cloth) to remove surface blemishes such as finger marks from the metal casing. Please follow these instructions. Open the Control Panel on your computer. If your DAC only has lower resolution formats then go ahead and select the maximum option. Home / Chord Mojo Connection Guide Download the Chord Mojo Driver from the following directory (link below). It should be serviced only by Chord Electronics Limited or their expressly approved service agents. Now go to the "Advanced" tab. For instructions on setting up your Chord Hugo, please see the following guide: Chord Hugo Setup Guide Plug in your Chord Mojo to your computer using a USB-A to micro B USB cable. Set resolution format to 32 bit, 384000 Hz (the max option). Page 2 Mojo requires no special care other than common sense. Set the Chord Mojo as the default device and click "Apply." (This example is installing the the Chord driver for use with Mac OS) Mojo + Mac OS: On Apple Mac OS, iOS for iPhone/iPad and Android, no drivers are required to change the sound properties. It is a good idea to maximize the resolution anytime you connect a USB DAC. Here is the Apple Online Support link for the Audio MIDI Setup if you need additional information. Click on Hardware and Sound. If you need cables to connect your Chord Mojo or DAC, see our Audio Cables for Chord blog post. ManualPDF.es asegura que encontrará el manual que está buscando en un abrir y cerrar de ojos. Rename "General the tab" to Chord Mojo. Therefore, you should not have to configure the sample rates if you are using the Mojo. To fine-tune the audio output, go to the Audio MIDI Setup (AMS) by navigating to Applications > Utilities > Audio MIDI Setup. The Mojo automatically defaults to 384 kHz and DSD 64/128 if your playback software/app can support it. Power on the Chord Mojo Most Windows 10 computers will automatically download a working USB driver, but be sure to install the available driver directly from Chord so that you can be assured everything works as intended. If you have any questions about installing the Chord drivers, please feel free to Contact Us! Happy Listening! Check out these frequently asked questions about the Chord Mojo ¿Busca un manual? There are no user serviceable parts in Mojo. Check the exclusive modes. Cada día añadimos los últimos manuales para que siempre encuentres el producto que buscas. Click Properties. This is not an issue with the Mojo but rather a settings configuration that will need to be done on the computer. You might be prompted to restart the computer for settings to take effect, if so, restart your computer. Click "Apply" Click on Mojo Supported Formats and make sure your computer mirrors the settings in the image below. Download the Chord Electronics Mojo Windows Driver HERE (This example is installing the Chord driver for use with Windows) In order for your mac or pc to utilize the Mojo you must select it as the source. You can configure your audio sample rate here too (for USB DACs). Be sure to check off all resolutions to ensure that your Chord Mojo can playback various audio resolutions. Page 3 ¿Busca un manual? © Copyright 2022 ManualPDF.es. Should you need to make a claim under warranty you must contact the retailer or distributor to arrange collection. When automatically installing the driver in Windows 10, your computer will prompt you that the Mojo is "set up and ready to go." (See image below) Install the downloaded driver file onto your computer. If you are using JRiver to handle your music catalog with the Chord Mojo, Hugo or any USB DAC, in version 10.0.115 of JRiver Media the screen looks like this: To set up the Chord mojo or another sound device, go to: Set up with the following attributes: Buffering - select "50 milliseconds" and check the box for "use large hardware buffers" Volume - select "Digital Output (Chord Async USB 44.1kHz-..." Tools - check the box beside "DSD bitstream in DoP format" These are all the Sound Properties changes that you need to make when using the Mojo or another USB DAC with Windows or Mac.
