Addon Creatures (1.19, 1.18) adds more than 20 mutants with creatures and easter eggs in the local minecraft variety with amazing skills... If you are looking for an add-on - to increase the difficulty of the game by several steps, this is a great option. This means that the world will be much more complex, as each mutant is much more powerful than its predecessors. None of the mutants will be affected by falling or launch damage. Functions: Creatures: Mutant Zombie & Husk. Basically a polite version of a normal zombie. They may be delayed in the fall, but they will rise and become stronger. You can call the maids, which takes about a few seconds. Flint and steel use, once it is eliminated, these mutants block mutants and praise zombies: they can defeat mutated animals, but they look strangely different. Two regular zombies that were part of Minecraft Earth and were abandoned in mid-2001. They don't have a special ability to summon servants, but they prefer what they have. Block zombies clamber up walls like polished-armed spiders, while Lobber zombies shed their venomous flesh. Mutant Creeper: An animal with four legs and a twisted neck gives you the appearance of a spider, but a little more intimidating. Previously, Liana was afraid of the ocelot, but as a mutant she took revenge. They cause much bigger explosions by throwing their servants up and protecting them from the explosions! Win once at low health, just run! Mutant Skeleton & Streuner: These two mutants have become master archers with their own special arrows that pierce any crowd they come into contact with. They have a second stage that will be a blast once you throw it for the first time! The second time the qualifiers will explode into pieces. RI Mutant Skeleton: This type of withered skeleton doesn't look any more intimidating, aside from its two stone swords. This mutated animal is more dangerous than a mutated skeleton and thought. As long as he is overloaded, it will make the fight against his special abilities worse. Mutant Piglin and Piglin Brut: This monster Piglin with his own crossbow and golden sword is just neutral, i.e. when the player wears everything in gold. If you are given gold or a gold bar, there is nothing else to think about, but it will take longer than expected. Unlike Piglin Brute, he will immediately attack Ax with his Gold War! Mutant Zombie Piglin and Pigman: One of the neutral mutants that only attacks when attacked. He also works and summons Java maids. He will deal a lot of damage with his golden sword. Using flint and steel has no effect. However, the piggy variant was something like the old mutant snow golem of the time: a stronger version of the snow golem. As if leaving a trace, the water will turn into ice! Every monster in Weight throws blocks of ice! Taming always allows one player to ascend! Also use scissors to selectDerpay look. Iron Goat Mutant: A powerful Golem beast, very much like a Guardian. It is not created naturally, but it is a gift. It can break more full capacity mutants but needs to be repaired over time over the heavy fights. It can drive up to 2 players, but the beast doesn't work at full capacity. Axolotl Mutant: A cute and deadly animal with a powerful tail. Rarely lives in lush burrows, but can breathe both air and water, but its powerful tail can certainly inflict damage... a little similar to a crocodile. Ocelot Mutant: Strange leopard, red beast and tiger with different types. Casual living in the jungle, the lush version of the cave somehow survives in deep caves and a snow variant that walks on the snow powder very easily. One of the fastest changes that no other crowd can overcome. Not surprisingly, it is rarely seen. Wolf Mutant: It replaced the wolf a little more than before and even more. Any animals he sees will launch a full attack! When domesticated doubles your health and players can ride it in a manner similar to a horse wizard and you can jump on the ride. Instead of collars, why not paint fur? Wolf Skeleton Mutant: This wolf skeleton was a reference to Minecraft land ending in 2010. in the middle21. It's a little different than the mutated wolf that mainly lives below and is hostile to any player or wolf that it sees! Catching this hellish dog" is not an easy task, but in this case it is a rare opportunity to be domesticated! Mutant Spider- Pig Up Target, he will use the web so there is no escape! Hides under water. They swim very quickly in the deep sea and will call the minions who can have a trigeminal. With his triplet, he can do a lot of damage. Sometimes it can get angry with the Enderman mutant: a powerful animal has changed in the last dimension. This beast isn't one of those enders. Instead, he can throw blocks and pretend he's a clone to mislead his target! For a roar, he'll force the player to seed and stop the IGO tea in the dark! Like the usual Enderman looking at him, he will attack the pumpkin, do nothing! Item: Chemist X: xThis is the real reason for a crowded mutation with 50% chance! Hulk Hammer can be cooked and cooked: a hammer that can damage any crowd in a nearby range, but requires a certain time. It can be found with any mutant zombie drops. It can be repaired slowly by attacking the crowd with mixed damage. Eggs: Eggs that can be found by exploding for a mutant sect. Respect (touch), location (control), right mouse button (windows) or trying to break the egg, will be capable of falling into a lipra. We can only wait. Waiting takes about 10 to 12 minutes, maybe the flash time can shorten. Screen Copy: Notes Installation: If you still have older versions of this addition, remove them in Minecraft memory settings.
