I would like to thank you for having provided a resource so excellent. The effort and ability who went to create this program is very obvious. I have Started the classical guitar a year ago with a teacher but he was unable to engage for the same regular bands each week. The Woodshed program was exactly what I was looking for. I found the site very intuitive and well structured and I took the Your advice and I started from the beginning of the program, even while practicing some of the pieces I was already working. It is clear that I would benefit much from these first technical studies. There were clearly weak Dices and gaps in my knowledge even if they are still at an initial phase. Once again many thanks for the program and best wishes. -Rodger Paylor I started as a folk guitarist, then he fell in love with the classical guitar in my 20 years. Despite a lot of practices and schooichldren, I couldn't show my music. I struggled with excess voltage. My music seemed forced. And my hands and the body were often aching. I became frustrated, and I couldn't see the way to follow. Then, in the next decade, I studied with two other stellar teachers - one focused on technical movements and one on the musical (he was a concert pianist). On time, I came to discover a new series of formulas and movements. These have brought new life and vitality to my practice. Now help guitarists find more comfort and flow into their music, so they play more beautiful. Click here for an example formula. For a year ago with my subscription to CGS it was a pleasant adventure for me and a discovery of all the facets of the classical guitar. Your dedication and enthusiasm, as well as your talent. in the lessons is rather contagious (well, it also hopes for your talent) and made it fun and useful in my progression. Even the weekly tip that contacts us and the Facebook group is excellent. -Michel Donnet Guitar Classica My arrangement in the Standard Music Music & Guitar Tab of the prelude of BACH  $\epsilon \acute{a} \rightarrow$  - first suite for violoncello only (BWV 1007).
